County Employees

Raises Are Few

Pleading penury Randall County commissioners court Monday declined blanket pay hikes to county employees but gave what the court described as merit raises to a few who were highly recommended by department heads.

Most department heads had asked for raises across the board for their workers.

"Our budget doesn't have too much surplus," Commissioner Jim Fletcher led off in

an interview with District Clerk La Quitta Polvadore.

The only department head to get a raise Monday was Randall County Criminal District Attorney George Dowlen whose pay was hiked from \$10,200 to \$12,000 a year. Dowlen was also given \$1,000 a year for expenses.

His assistant, Dick Dambold, was raised from \$8,400 to \$9,600 and his secretary from \$385 a month to \$405.

Dowlen had to take the bitter with the sweet. He was denied a second assistant and a part time assistant for tax matters.

"We just don't have the money," Commissioner Butler explained.

Karen Daily, chief deputy to the district clerk, was raised from \$385 to \$405 a month and Kay Morton who handles child support payments was raised from \$340 to \$355.

With few exceptions raises granted were a flat five percent rounded off to the nearest \$5 denomination.

One exception was Mrs. Annie Mae Meyer, bookkeeper for the sheriff's department who was raised from \$415 a month to \$450.

In asking for the raise for Mrs. Meyer, Sheriff L. S. "Slim" Johnston pointed out that Mrs. Meyer works on Saturdays and at other

times not worked by county employees in other offices.

Action on other sheriff's department raise requests was withheld pending a ruling on a state statute concerning salaries of deputies in counties the size of Randall.

Pay of Christina Davis, newly appointed chief deputy in the county clerk's office, was set at \$405 and Maxine Bridges was raised from (see RAISES, page 10)

For Show Animals

Sale Excellent

BY TROY MARTIN

One of the best sales in recent years rang down the curtain on the 24th Annual Randall County Junior Livestock Show Saturday night.

The sale brought Canyon youngsters \$16,620.77.

Rick Hales sold his black Angus grand champion of the show to First National Bank for an even \$1 a pound. The steer weighed 941 pounds.

The reserve champion steer was shown by Rick's sister, Rhonda, and was also a black Angus. It weighed 946 pounds and sold at 60 cents a pound to Farmers Elevator of Dawn bringing \$567.60.

Both animals will go to the Amarillo stock show to compete for prizes there.

First National Bank also bought Phil Atkinson's grand champion Duroc swine for \$1.80 a pound. The barrow weighed 193 pounds and brought \$347.40.

Pat Trammell's reserve champion barrow was also a Duroc. It weighed 193 pounds and brought \$347.40.

The two top lambs also will be exhibited in the Amarillo stock show.

Taylor-Evans Farm Stores sweetened the price for youngsters by giving a cent a pound for every animal exhibited in the show.

Seek Enabling Act From Legislature

BY TROY MARTIN

A hospital steering committee has announced its intention to petition the legislature for enabling legislation to allow creation of a hospital district in South Randall County.

Boundaries of the district being sought would coincide with present boundaries of Randall County commissioners Precinct 3.

Ray Grimes, manager of Neblett Hospital which is operated by a foundation, stressed that legislative action would not in itself create a hospital district but would only permit an election at some future date to determine whether a district would be created.

The committee acted Monday night on a recommendation from a hospital planning committee headed by Mrs. T. G. Hull, Jr.

Consensus of the committee was that a new hospital facility will be needed by the community within the next five years and that creation of a hospital district would be the most plausible way to obtain funds for construction of such a facility.

If enabling legislation is passed by the legislature, the citizens of the precinct must decide in an election whether to establish the district. If the district is established, an election then probably would be held on a tax bond issue to provide funds for constructing and equipping a hospital.

Grimes pointed out that several methods of financing would be studied including the possibility of obtaining Hill-Burton funds or federal grants through the Department of Housing and Urban Development.

Clarence Eugene Thompson, president of the hospital planning committee, said (see HOSPITAL, page 10)

Bare Feet, Warm Floor Spots Leak

The county has literally been in hot water over its annex in South Amarillo.

The annex has been settling for years—almost since it was built in the middle 1950's. Gaping cracks appeared in the walls and the concrete floor in a hallway separated.

County officials recently had the cracks caulked and other repair done to the building. The cracks appeared again.

Last week a plumber got suspicious.

Rene Maples, secretary to Justice of the Peace W.W. Hancock, walked around a section of the floor in her bare feet. Sure enough, the floor was warm.

Then 14 inches below the slab the plumber found a copper hot water pipe with a small slit in it which obviously had been leaking since the building was constructed.

County commissioners hope a small repair job by the plumber will cool it.

Candy Carpenter, soprano, and Emily Davis, alto, were selected to the All-State Choir Saturday at competition held in Lubbock. The pair will travel to Houston next month to participate in the All-State Concert. Both are seniors at Canyon High School.

Two CHS Girls To State Choir

Two CHS Choir members, Emily Davis and Candy Carpenter, were named to the All-State Choir Saturday in Lubbock.

It was Miss Davis' first year to be a member of the All-State Choir and Miss Carpenter's second. The two

are scheduled to travel to Houston February 11 through 16 and sing at the TMEA meeting.

Miss Davis played the lead in the musical "George M". She is a member of Junior Who's Who and has made 2-I's in UIL competition in the solo and ensemble contests.

City Hires Assistant To Manager

Glen R. Metcalf, recently returned from a year with the Army in Vietnam, became administrative assistant to City Manager George Loudner on Monday.

The lifelong Canyon resident is a graduate of Canyon High School and West Texas State University. He was discharged from two years of Army service with the rank of specialist fifth class. In Vietnam, he worked as a personnel supervisor.

Metcalf is married to the former Miss Andrea Lair, daughter of Mr. and Mrs. Tommy Lair. He is the son of Mr. and Mrs. Ray Metcalf.

Great Shot Man Is World Athlete

Randy Matson has been named world athlete of the year by the prestigious world-circulated Track & Field News published at Los Altos, Cal.

Runnerup was Wolfgang Nordwig of East Germany. Nordwig is a pole vaulter.

Announcement of the honor was made Wednesday in a press conference by Bert Nelson representing the magazine.

Matson lives in Amarillo and is executive secretary for the West Texas State University Buffalo Club.

Only last Saturday Matson tied the world indoor shot put record of 67 feet, 10 inches. He is an Olympic medalist and holds the world outdoor shot put record with 71 feet, 5 1/2 inches.

He has the top 25 puts of all time with 52 of the 53 longest.

Matson received the honor on vote of 66 out of 100 editors and senior contributors of the magazine. This is the 12th annual poll.

RANDY MATSON

Matson weighs 272 pounds and is 6 foot, 2 1/2 inches tall. He is 25 years old, a graduate of Pampa High School and Texas A&M.

He and Mrs. Matson have two children, Jessica, 2 years old, and James Randal, Jr., 4 months.

Randy goes to San Francisco Friday for The Examiner Invitational and to Albuquerque for the Jaycee meet Saturday night.

CHS Kids Shun Cafeteria Food

Canyon school board discussed the possibility of closing the high school cafeteria Tuesday night when it was learned that less than 25 percent of students and school personnel eat there and that the operation is going into the red.

All five students who attended the Tuesday night board meeting said they do not eat at the cafeteria.

They had little or no complaint about the food served there. They agreed that they just like to get away from the campus during the noon hour.

John Lewis, a high school senior who lives near the campus, said he puts a TV dinner in the oven and sets the timer. There a hot meal is for him when he gets home.

Mrs. Charlie Graham, a teacher, told the board that closing the cafeteria would work a hardship on students who do not live in Canyon.

Jeff Boaz, a student who lives in Amarillo, said he rarely or never eats at the school cafeteria although he does sometimes patronize (see CAFETERIA, page 10)

At a reunion of my teammates of college years, each of us felt that he looked younger than his buddies. The group photograph was a mistake because it said loudly and clearly, "you all look about the same age!"

US News & World Report in a recent issue noted that many large and famous universities are in financial trouble because they are not receiving the gifts that once flowed to them.

Most of the schools involved are those which have experienced violence and student unrest.

People have gotten sick and tired of seeing their money dissipated by a bunch of "students" who don't really want to go to school. They've turned the faucet off.

I guess they figure that if they are going to put up the money for institutions of higher learning then the students and faculty ought to be doing something more creative than setting fire to the ROTC building.

H.M. Baggerly, editor of The Tulsa Herald, hasn't gotten around to blaming the drought on Richard Nixon yet. I guess it is just because H.M. hasn't thought of it.

Surely by some stint of H.M.'s warped political logic he can come up with some argument to convince himself that the lack of natural moisture is somehow the fault of the administration.

John Fulgenzi, the new

commissioner, tells a story of search for water in Kansas.

Two geologists told his firm where to drill. Up came two dry holes. The boss on the job sent for a water witcher.

The man took a forked stick and walked around the vicinity. He told them where to drill. They drilled there and got a good well of water.

There are still some people who swear by the old witching method of finding water. If I remember correctly it takes a forked limb off a bean bearing tree, a mesquite limb being ideal for the job.

Paul Ferguson, the wildlife refuge manager, says the mighty eagle is a vanishing breed. He said the last count at the Buffalo Lake Wildlife Refuge turned up an adult golden eagle, and one young golden eagle.

Paul said a wounded golden eagle which had apparently been shot on the tip of one wing was found recently east of Happy and taken to the wildlife refuge.

He said he would take the bird to Dan True, the TV weatherman. Dan has a permit to treat such birds and has done so successfully before.

Shooting either a bald or golden eagle could be expensive business. Paul says the fine for doing so can range up to \$10,000 and the offender could even draw jail time.

During the recent tour of the migratory bird area at the refuge a crane which had been taken captive in the lake mud flats has been held in a pen near the office to be shown off to visitors.

After the tours ended last Sunday, Paul released the towering crane at the edge of the lake. By the time he got back to his office the crane had returned also and was clamoring to get back into his pen.

Paul hopes that by migration time the crane will have tired of domestication and will migrate with his fellows.

Guests present were: Jim Scarbrough, Jim Ward, Don McRoberts, and Howard Wilkerson.

Business Dean To Compete For State Honor

Dr. C.C. Callarman, dean of the School of Business at West Texas State University, will go to the Texas Business Education Association in Dallas on March 12 as the District XVI Business Education Teacher of the Year. He will be one of 19 competitors for the state title, having received the district honor in late November at a luncheon in Amarillo.

Mrs. Mildred Simpson, assistant professor in the Business Education Department at WTSU, will serve on the state executive board as District XVI representative.

Also planning to attend the meeting are Dr. Roland Johnson, head of the Department of Business Education and Office Administration, and Dr. John Rider, professor of business education.

Letter To The Editor

Dear Troy:

The FFA appreciates those businesses and individuals who supported its members during the year and especially at the livestock show. At a time when many organizations go wanting for supporters, we indeed feel fortunate that our community feels that we are important enough to back with personal and financial support. It is encouraging and strengthening to our members that genuine concern is expressed for us, and that we should now be challenged to invest the best of ourselves back into this community and its future. Again—Thanks.

Each person attending is asked to bring a salad. Mrs. Jerry Jacobs will review the book *Junior Dear*, for the program.

Our World

BY ANN BROWN

"Faith," according to one fervent hillbilly preacher, "is believing what you know ain't so." Almost every intelligent person rejects such a definition. Yet many people reject faith itself because so many of the "Faithful" practice just such a contradiction.

One common fallacy is that joining a church and being faithful to it keeps one in God's good graces. Going to church no more makes a man a Christian than entering a barn makes him a cow.

Parents are intended to be the link between man and God (Deut. 6:1-7). When they fail, the chain of faith is broken. Actually, faith is quite simple, and we all practice it all the time. We drink water from a faucet believing the water supply is pure. We eat our meals believing the food is not poisoned. We drive down the highway 70 miles an hour believing that the car coming to meet us will stay in the other lane.

Obviously, there are times when our faith in man is misplaced. Sometimes the water is not pure; the food is tainted, and the oncoming driver does not stay on his side of the road. Shall we then abstain from food, drink, and automobiles?

When a businessman says he has faith in his partner, he means that he believes his partner will deal honestly with him, and abide by the terms of their agreement. If he says he has faith

in his wife, he means he believes she is truthful and will keep her marriage vows. We relate to people according to our faith in them.

Is it easier to believe in weak and finite human beings—who often fail us—than to believe in our divine Creator whose word has never yet been broken?

Faith in God is so simple that many intelligent people miss it entirely. Faith is believing God will do exactly what He says He will do. Is that so different from faith in our fellowman? And we do act according to our beliefs; but how does that eliminate worry, and give us peace and happiness?

If faith is believing God will do what He says He will do, we cannot exercise faith without knowing what it is that God promises. That requires Bible study.

When we study the Bible, we discover that God never made a promise without attaching a condition to it. We cannot hope to claim the promises unless we meet the conditions. (The first promise we should claim, of course, is Rom 10:13.)

Americans probably worry most about money—until they get it; then they discover it does not buy happiness. (Our money says "In God we trust." Perhaps it would be more accurate if it said, "In money we trust.")

Jesus gave man the solution to all his money problems in Matt. 6:19-34. The condition is in verse 33. It is useless to try to claim the promise without meeting the condition.

Americans worry about their health. Accepting the promise God made in Ex. 15:26 can keep us healthy.

Many people worry about their social standing. God's answer to that is found in Matt. 23:11-12.

The fortunate few who do attain health, wealth, and social status invariably find that these blessings do not solve their problems, eliminate their worries, or bring them happiness.

The man who loves no one,

and has no one to love him is miserable regardless of what other assets he may possess. God's solution to that problem is found in I John 4:7-11.

Of course, any man who claims the promise in John 15:7 acquires the key to God's whole storehouse of treasures, and eliminates all causes for worry. Meeting the conditions, however, takes a bit of doing. Exercising faith keeps one far too busy to have time to worry.

We do not need to know what the future holds; that would probably increase our worries. We need to know Him who holds the future, and be content to leave it in His hands.

Alcoholism Seminar Planned at WTSU Activities Center

A seminar on alcohol and alcoholism is to be held in the Activities Center at West Texas State University Friday and Saturday.

The meeting is being planned by the Texas Commission on Alcoholism and the Amarillo Council on Alcoholism and hosted by the university. Sessions will begin at 7:15 p.m. Friday.

The conference aim is to help anyone who is interested in gaining a better insight into the problems of alcohol and its abuse. John Raef, executive director of the Amarillo council, said that it could benefit anyone in the fields of health or social education, law enforcement or probation officers, industrial supervisors, and medical and para-medical personnel. Teachers and future teachers would also gain by attending, Raef feels.

Two discussions are planned for Friday. Dr. C. C. Waggett, educational director for the Texas commission on Alcoholism, will speak on "Alcoholism, the Iceberg Disease," giving information on symptoms of the illness which usually go

unrecognized by family and associates.

"The Social Dimensions of the Problem," will be considered by Dr. C. Stanley Clifton, professor of sociology at Angelo State University in San Angelo.

The morning session will begin at 9, when Dr. James J. Ferrero, will speak on "Alcohol and Its Effects on the Human Body." Dr. Ferrero is director of mental health services for the Mental

Health and Mental Retardation Center in Austin.

Raef will tell the group about resources for information, education, and referral on both state and local levels. Part of his material will be especially for teachers or future teachers, giving them sources of information to use with children.

Facilities normally available for treatment and rehabilitation in a community the size of Amarillo will

be discussed by Mrs. Dorothy Cook, alcoholism rehabilitation technician for the Amarillo office of the Texas Rehabilitation Commission.

"The World of the Alcohol-ic," will be described by Dr. Melvin P. Sikes, professor of educational psychology at the University of Texas in Austin.

"New Attitudes and Tools for Alcohol Education in the Public Schools" will be the subject of the afternoon's first session. The presentation will be made by Dr. My-

ron Dees and Dr. A. J. Luquette of the university's department of health and physical education with the aid of Brad Piebe, regional coordinator for the Texas Commission on Alcoholism.

A panel made up of the seminar staff will answer questions at 2:15 to close the conference. Priebe will moderate.

Dr. Kenneth Laycock, dean of the School of Teacher Education at WT, will welcome the group Friday evening. Dr. Dees is master of ceremonies for the entire conference.

There will be no charge for the seminar. Registration will be at the door.

Critic Judging Workshop Scheduled At WT Tomorrow

A special Critic Judging Workshop, sponsored by the University Interscholastic League and West Texas State University, will be held tomorrow at 7:00 p.m. in the Branding Iron Theatre.

Lynn Murray, UIL state drama director from Austin, will be in Canyon to help direct the workshop.

The first Critic Judge Workshop to be held on the WTSU campus will include demonstrations of critic judging, discussions of rules and procedures affecting the contest and suggestions concerning judging fees and expenses. The demonstrations will involve actual productions of scenes from well-known plays, using high school actors.

Schools scheduled to perform scenes from plays include Amarillo High School, Wes Schultz, director and Dimmitt High School, Bob Rarrar, director.

UIL rules prohibit anyone from judging One-Act Play Contest unless they are listed on the Accredited List of Critic Judges.

Prerequisites for becoming an Accredited Critic Judge are:

(2) Each judge must have a minimum of twenty-four college semester hours of drama and or theatre courses or the equivalent professional training. WT Student Senate Investigates Library

WTSU's Board of Regents will soon have a petition signed by 375 university students indicating that they believe the WT library to be inadequate and in need of improvement.

The petition, circulated during registration last week, was the result of a two month study conducted by Student Senate committee. Members of the committee included Chris Gerald, Gary Patton, Jane Zinser, and Gwen Giles.

"They didn't uncover anything surprising," Gary Story, student body president, stated.

The committee contacted all 33 heads of the departments, librarian Frank Blackburn, and interviewed students on campus and student employees of the library.

"The department heads were in general agreement that the library needed to be improved, however, they thought it was adequately serving their area of study," Story reported.

"They were quick to add, however, that if strong Master's and Doctoral programs were added, then the library would have to be improved," Story pointed out.

Two Concerts Announced

Members of the Canyon Community Concerts may attend James Oliver Buswell, IV, violin concert in Plainview tomorrow at 8:00 p.m. in the Plainview High School Auditorium through the reciprocity system.

In Operetta Time, a soprano and baritone concert performance, will appear at Dumas High School Tuesday at 8:00 p.m. Reciprocity is extended to Canyon Concert members.

Miss Moore Weds Sheffield

Patricia Lynn Moore became the bride of James Miles Sheffield on January 9 in the sanctuary of the First Baptist Church of Amarillo.

Dr. Winifred Moore officiated the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Luther C. Moore of Rt. 2, Amarillo. The groom is the son of James Marlin Sheffield of Odessa.

The sanctuary was decorated with a 14-branch arched candelabra featuring jade foliage extending from candles to floor, two floral arrangements of pink gladiolus placed on white column pedestals and aisle candles with garlands of greenery and ribbon streamers. The kneeling bench was decorated with garlands of greenery and caught with flowers.

Peggy Brown of Amarillo served as maid of honor. Tanya Travis of Amarillo and Jennifer Sandlin of Canyon served as bridesmaids.

Best man was Jimmy Allen of Baton Rouge, Louisiana. Groomsmen were Bill Bell of Lubbock and James Hufford of Amarillo.

Mark Moore and David Moore, brothers of the bride, served as ushers.

Craig Ellison served as ring bearer and Cinna Reid was flower girl.

The bride, given in marriage by her father, wore a formal gown of candlelight taffeta and re-embroidered lace, designed with a Victorian neckline, fitted empire bodice and large bishop sleeves. The sleeves were caught at the wrist by a lace cuff. Lace traced a pattern on the bodice. The A-line skirt swept to back fullness and cascaded into a chapel train. A miniature satin ribbon enhanced the back waistline.

The bridal veil was of matching candlelight illusion that fell from a coil of lace rosettes and tufts enhanced by seed pearls to elbow length.

She carried a bouquet of two small white japhet orchids atop a Bible with cascading streamers with ivy and stephanotis blossoms falling from the streamers.

Misses Mary and Marleen Sheffield, sisters of the groom, sang the "Lord's Prayer" and "First Corinthians Thirteenth Chapter."

A reception in the church parlor followed the ceremony. The Sheffields and Misses Carol Abraham and Patricia May served at the bride's table.

After a wedding trip to Santa Fe, New Mexico the couple will be at home at 2815 W. 27th, Apt. 23 in Amarillo.

The bride attended WTSU and is currently employed with the city of Amarillo in the Purchasing Department.

The groom is a 1968 graduate of Baylor University and assistant manager of Zales Jewelers in Sunset Center.

Two Men Draw Terms On Drug Charges

A jury of four women and eight men Monday found Don Armstrong, 19 years old, Amarillo, guilty of selling LSD to undercover agent Carolyn Cox and gave him three years in prison. Earlier in the day Jackie Williams, 19, also of Amarillo, entered a plea of guilty to charges of selling marijuana and was given a five-year term.

A motion for a mistrial in the Armstrong trial by Defense Attorney Selden Hale was overruled by District Judge E. E. "Gene" Jordan.

Both Williams and Armstrong were swept up in a net in which more than a dozen were apprehended a year ago this month.

Mrs. Cox, chief witness for the state, posed as a teenager while working undercover

for the Amarillo Police Department and the Randall County Sheriff's Department.

Mrs. Cox testified Monday that she first met Armstrong Nov. 21, 1969 and that he offered to sell her some mescaline tablets but she declined the offer.

She said he showed her 25 to 30 tablets which he represented to be mescaline. Mescaline is derived from peyote and is an hallucinogenic.

She said she bought a pill from Armstrong on Nov. 23. Department of Public Safety chemist George Taft testified that he analyzed the pill and it was LSD.

Hale called Mrs. Cox back to the witness stand and asked her if she had provided whiskey and marijuana for Armstrong on Nov. 21 and then engaged in sex with him.

She answered both questions in the negative.

Armstrong testified that the only time he ever was around Mrs. Cox was on Nov. 21, 1969. He said she gave him marijuana and whiskey and engaged in sexual relations with him at an Amarillo motel.

Mrs. Cox told the jury that this would have been impossible since at the time she was supposed to have been with Armstrong at a motel she was buying marijuana from Gary Morris, since convicted.

It was at this point that

Hale moved for a mistrial because of reference to the Morris case.

Armstrong asked for probation and Hale pleaded for a second chance for his client.

Assistant Randall County Criminal District Attorney Dick Dambold said Armstrong had been in trouble since he was a juvenile and had already had a second chance.

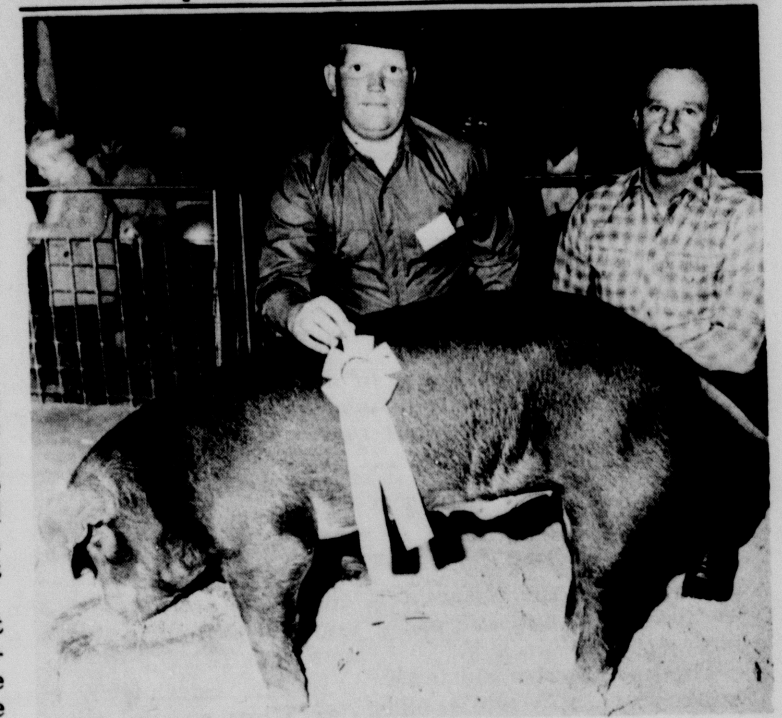

"If you are going to lick the drug problem you've got to catch the pusher and put

him in the penitentiary," Dambold declared.

"You can say by your verdict what we think of the problem in Randall County," District Attorney George Dowlen told the jury.

Throughout the arguments Armstrong's young wife who is expecting a child sobbed audibly on the front row of the gallery just across the rail from the jury box.

Armstrong was married April 7, 1970, some three months after his arrest on the charge.

Pat Trammell, left, and Don Sheets are shown here with the reserve champion swine of the junior livestock show. Sheets exhibited the animal purchased by Consumers Fuel & Elevator Association of which Sheets is manager.

Canyon To Expand Telephone Facilities

Two projects are scheduled to expand telephone facilities in Canyon during 1971, according to Mike Patrick, manager for Southwestern Bell Telephone Company.

He said that jobs to be started or completed in 1971 include the installation of central office dial equipment to provide for 400 new telephone numbers for growth.

In addition, an outside plant project will reinforce the feeder cables from the central office to the south area of the city.

"These projects are aimed at helping the telephone company keep up with the increasing communications needs created by our growing city," Patrick said.

He pointed out that telephone growth is a good indicator of a city's overall growth rate. For example, Patrick said there were 2,630 telephones in Canyon at the

end of 1960. In December of 1970, there were 6,551 telephones in the city, an increase of more than 59 percent in the decade. A total of 232 telephones were gained in 1970.

Patrick said that Canyon residents dialed 23,860 calls on an average business day in November.

"It appears that the number of telephones will continue to climb and expansion will remain a way of life here for quite awhile," Patrick said. "We expect to have 9,000 telephones here by the end of 1974."

Patrick said Southwestern Bell has announced plans to spend a record \$114.1 million on land, buildings and equipment this year in the San Antonio administrative area, of which Canyon is a part. The area covers roughly the western half of Texas.

Auditions for the WT Fine Arts Show, "Hamlet" will conclude this evening. Those wishing to read for various roles should meet in the Intimate Theatre at 7:00 p.m. tonight. Bill Jordan of Canyon was one of those who read for a role Monday night after Buffalo Masquers meeting.

Easter Seal Director, Ex-POW Speaks To Kiwanis Club Here

Gilbert L. Muddell, Jr. spoke to the Kiwanis Club last Friday noon, giving them a two-fold speech concerning the Easter Seal Society and a personal plea for names of ex-prisoners of war.

Muddell travels in some 87 of the 254 counties in the State of Texas, as the West Texas Area Director of the Easter Seal Society for Crippled Children and Adults of Texas.

He told the civic group that any handicapped person in Texas who needed assistance financially could receive help from the Easter Seal Society.

Referral papers may be obtained locally from David West, Kiwanis member and Canyon Easter Seal chairman. A Lily Day is currently being planned for the city.

"78 cents out of every \$1 contributed to Easter Seals goes to direct services to the patient," Muddell pointed out. "We are the oldest health organization in existence."

Muddell also told of his concern for current prisoners of war and his nationwide search for ex-POW's. During World War II he was an engineer gunner for full

Col. William Stead, "a West Point man."

He was taken as a prisoner of war in Germany after his B-24 bomber was shot down over Yugoslavia.

Muddell stated that while a prisoner of war he went from 218 pounds to 106 pounds. He was beaten and had many of his teeth knocked out.

He believes that letters with a single signature of individual ex-prisoners of war will do more toward the release of POW's now held in Viet Nam than petitions

with hundreds of names. "I will try to locate every POW in the United States," he said.

It is Muddell's desire that ex-POW's personally write the President, their senators, and congressmen telling of their experiences and giving a plea for more to be done to secure release of those now being held.

Those knowing names of ex-POW's are asked to write or call Mr. Muddell. He lives at 1811 Lawson Lane in Amarillo, 79106.

Raises. . .

(Continued from Page 1)

\$340 to \$355.

Tax office Chief Deputy John Guthrie was raised from \$520 to \$545 and Decla Kelley, chief deputy in the Amarillo office, was raised from \$500 to \$525.

Ethel Welch, chief deputy in the motor vehicle division of the office, was raised from \$375 to \$425.

David Stevens, 58 years old, retired serviceman, was hired as appraiser at \$425 a month and \$100 a month car expense. Stevens, who lives in Amarillo, was hired to replace Lloyd Welch who has resigned to accept a similar position with Canyon Independent School District.

Mrs. Ruth Lassiter, secretary to County Agent John Brazzil, was raised from \$340 a month to \$355.

The court set the salary of County Juvenile Officer Harold Mann at \$635 a month and his assistant at \$550. Salary of Chris Tho-

mas, secretary to the county judge, was raised from \$385 to \$405.

Salaries of road crews were raised a flat \$20 a month.

In other business, the court appointed Bill Butler and Jim Fletcher county representatives to the Panhandle Regional Planning Commission. Butler at first asked to be relieved but was persuaded to serve.

the snack bar.

School Superintendent Jerry Jacobs told the board that the school cafeterias lost \$2,719.61 while the snack bars cleared \$3,529.05 for a net of \$809.44 during the August-December, 1970 period.

Board Member Jerry LaGrone suggested that the school either close the cafeteria or keep students on campus during the noon period. Most students are eating down town.

Jacobs said the answer might be TV dinners and electronic, quick-thaw ovens.

Board President Dudley Moore said it might be wise to have milk on hand for the students and allow them to bring sack lunches.

Jacobs said average patronage for the high school cafeteria is 151 out of a potential of more than 700 counting both students and school personnel.

He said an average of 108 students a day patronize the high school snack bar and 185 in junior high.

Lunch room participation is much higher in the junior high and elementary levels. During the period an average of 443 meals were served at the junior high cafeteria; 819 at Rex Reeves; and 245 at Gene Howe.

Available at the snack bars are hot dogs, hamburgers, cheeseburgers, French fries, onion rings, desserts, tea and milk. Jacobs said these are priced to make a profit.

Cafeteria prices are 40 cents a meal for elementary students, 45 cents for junior high, 50 cents for high school students and school employees.

After a lengthy discussion the board voted to leave prices and operation unchanged for the present.

Canyon High School's soaring girl Eagles humiliated Dalhart on the opposing team's home court 62-26 Tuesday night.

Coach Bob Schneider's charges jumped to a 25-6 lead in the first quarter and increased it to a whopping 42-10 by halftime.

The girl Eagles led 52-19 by the end of the third period.

Leta Gill led her team with 28 points and Lynette Slack bucketed 17. In fact, all the forwards scored.

In the final two periods Coach Schneider cleared the bench giving his reserves a taste of the victory.

Leading scorer for the home team was Betsy Brooks.

The Eagles hit 67 percent from the foul line which is an improvement for them. They sank 20 out of 30 tries.

In the field they put the ball up 44 times and scored 21 of that number for 48 per-

cent. "We played a good ball game," Coach Schneider admitted. "Everyone got to play and in spite of that we had only 16 turnovers." The Eagles had only six turnovers in the first half when the varsity was on the court.

The girls did fairly well in the rebound department too getting 30 during the game. Joy Williams got six on defense and Lynette Slack five on offense.

The girl Eagles intercepted or stole the ball 20 times. The junior varsity girls also had a good outing at Dalhart defeating their counterparts 42-23. Lyn Bowles led scoring with 23 points and Mandy Sternberg scored 8 as did Kenda Lampkin.

The girls entertain Spearman teams Friday night with the JV game scheduled at 6:30 and the varsity at 8.

Eagles Lose To Lobo Team

Canyon Eagles suffered their first conference loss of the season Tuesday night at Levelland when they were defeated 70-61 by the Lobos.

In spite of a twisted ankle which held him to limited service the last two quarters of the game, Mike Podzemny was high point man for Canyon with 27 points.

Grant Duke scored 27 points for Levelland.

The Canyon Eagles put the ball up 79 times for 26 field goals and 33 percent and sank 9 of 19 free throws for 47 percent.

Levelland shot 70 times and sank 28 field goals for 40 percent. They made 14 of 25 free throws for 56 percent.

The Eagles picked off 63 rebounds. Of these 18 were offensive and 45 defensive.

Mike Podzemny left the game with a twisted ankle in the third quarter with Canyon ahead 2 points. With 2½ minutes to go in the fourth

quarter, the Lobos had a 10-point lead. The Eagles cut the lead, to 1 point with 48 seconds to go.

Podzemny returned to the game in the fourth period with his ankle taped. Podzemny stole the ball on the press and then missed a layup that would have put the Eagles ahead.

Levelland brought the ball down the court and was fouled. The Levelland shooter missed the free throw on a 1-1 but the ball was tipped in for two points.

From there the Lobos pushed to a 7-point lead by the final buzzer. A Lobo was fouled as the buzzer sounded and picked up two more free throw points after the game to make the final score 70-61.

The Eagles travel to Dumas Friday night to battle the Demons. Canyon now has a 2-1 conference record while both Dumas and Levelland sport 3-0 standings.

Hospital. . .

(Continued from Page 1)

Foundation, last March told the study committee that about 4½ years could elapse between the time talk starts and actual completion of the hospital.

He said the board has decided on a 50-bed hospital partly because of growth of the community and partly because Hill-Burton funds are not available for smaller plants.

He noted that modern facilities will be needed if the community is to attract additional doctors or even retain the ones who are here.

Neblett presently has five physicians and a dentist on the staff who are residents of Canyon plus some from out of town.

H. R. Fulton, Jr., is vice president of the foundation board and Miss Ruth Cross is secretary. Other board members are Mrs. R. A. Neblett, Bill Sternberg, O. H. Rahfs, Clarence Beckman, A.W. Lair and Mrs. Jim White, Sr.

Grimes said that although good hospital care is available here those who inspect the Neblett plant for accreditation are becoming more critical each year of its age and construction.

Neblett Hospital was constructed as a 6-bed hospital in 1937. Additions were made in 1939 and 1941 and then it was expanded by 20 beds in 1948.

The latest addition came in 1963. The hospital now has 35 beds.

MVC Cage Conference Split In Two Divisions

West Texas State University will compete for the Missouri Valley Basketball Conference title in 1972-73, according to information released early this week in Dallas by Conference Commissioner DeWitt Weaver.

The ten school conference was separated into two divisions, MVC East and MVC West.

West Texas State will belong to MVC-West along with Tulsa, North Texas State, New Mexico State and Wichita.

The conference scheduling formula calls for each team to play home and home with members of its own division, plus one home and home engagement with a member of the opposite division.

The remaining four conference games will be inter-divisional, two at home and two away.

Also included in the formula is a single game play off between the two divisional champions. The 1972-73 playoff will be at the site of the MVC East champion and will alternate thereafter.

The scheduling will give West Texas State 14 conference games with a possible 12 non-conference games.

The MVC also placed a moratorium on conference expansion. Normally the champion of the MVC playoff will be committed to the NCAA tournament while the loser in the playoff will go to the NIT.

Bufs In Home Stand Saturday

West Texas State University's Buffalo basketball team will be back in the Amarillo Civic Center Saturday night for a contest with Southern Mississippi.

The Buffs defeated New Mexico State there last Thursday night before a record home crowd of 4,500.

Coach Dennis Walling's charges lost a heart breaker Tuesday night to California State of Los Angeles, 83-78.

The game was lost at the free throw line where the Buffs managed to sink only 12 of 23 while their opponents hit 31 charity shots out of 37 tries.

Ray Golsen led scoring for WTSU with nine field goals and a free throw for 19 points. Ralph Houston had 18 and Steve Davidson 12.

The Buffs were to play Loyola of Los Angeles Wednesday night and return home for the Southern Mississippi game at 7:30 Saturday and a contest next Monday night with Southwestern Louisiana.
